Community College Consortium for Open Educational Resources

CCCOER is a growing consortium of community and technical colleges committed to expanding access to education and increasing student success through adoption of open educational policy, practices, and resources. We provide a community and resources to learn about the evolving practice of open education.

MERLOT
Multimedia EDUCATIONAL Resource for Learning and Online Teaching

The MERLOT system provides access to curated online learning and support materials and content creation tools, led by an international community of educators, learners and researchers.

MERLOT is a project of the California State University system, which started over 20 years ago. It is an international community of close to 160,000 members with more than 82,000 online learning materials in its repository, in nearly every discipline and material type. It is a comprehensive resource for faculty in all stages of their careers. MERLOT has a peer review process in 25 disciplines and is considered a universal gateway to online learning materials. At MERLOT instructors can use MERLOT Content Builder and create instructional materials.

MERLOT has more than 6,600 open textbooks catalogued in the repository. Users can search by ISBN to discover supplemental materials for a textbook. Users can find learning exercises, bookmarked collections and virtual guest experts. The collection of resources is easily searchable and also conveniently arranged by discipline community. With the MERLOT Smart Search, users can find materials not only in MERLOT, but in over a dozen other digital libraries and the web, all in one place. In addition, there is a search tool to help find colleagues.

Disciplines
- Academic Support Services (7,531)
- Arts (3,147)
- Business (7,842)
- Education (9,979)
- Humanities (9,507)
- Mathematics and Statistics (7,292)
- Science and Technology (44,209)
- Social Sciences (7,436)
- Workforce Development (2,342)
The Open Education Consortium (OEC) is a non-profit, global, members-based network of open education institutions and organizations. OEC represents its members and provides advocacy and leadership around advancement of open education globally. OEC works with its members to build capacity to find, reuse, create and share Open Educational Resources (OER), develop open policy, create sustainable open education models, and enable international collaboration and innovation.

OEC does not offer resources, but points to other organizations that do offer specific materials.

Openly Available Sources Integrated Search (OASIS) is a search tool that aims to make the discovery of open content easier. OASIS currently searches open content from 91 different sources and contains 365,241 records.

OASIS is being developed at SUNY Geneseo's Milne Library. OASIS collects and organizes information from a variety of sources such as OpenStax, Lumen Learning, etc. To get started, Search or Browse or OER by subject

Lumen Learning’s mission is to enable unprecedented learning for all students. We do this by providing affordable course materials designed to strengthen learning using open educational resources (OER). Because learning is about student success as well as affordability and access, we apply learning science insights and learning data analysis to develop iterative improvements to our course materials and learning tools.

Lumen offers OER Course Materials: Candela is extremely affordable e-books with curated text, video, interactives and other learning materials; Waymaker is OER with personalized learning tools to improve faculty student connections; OHM is low cost online homework and customizable courses; OLI is data and research reports to improve courses.

Libretexts mission is to unite students, faculty and scholars in a cooperative effort to develop an easy-to-use online platform for the construction, customization, and dissemination of open educational resources (OER) to reduce the burdens of unreasonable textbook costs to our students and society.

Collaborative Effort: Courses, textbooks and other materials listed by institution that is sharing. Searchable and browsable by subject.
